Classification

This action has been determined to be not significant for purposes of E.O. 12866.

Because this is a document concerning agency procedure or practice, under 5 U.S.C. 553(b)(B) prior notice and opportunity for public comment is not required to be given. Nevertheless, because NMFS wishes to establish revised procedures with the benefit of the public's comment, NMFS is voluntarily giving prior notice and an opportunity for public comment.

Because prior notice and opportunity for public comment is not required by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, are inapplicable.

These proposed guidelines contain no new collection of information requirements.
